❖ SC-30 - Autism in My Classroom

Course Leader: Stephanie Halfpenny

Autism Spectrum Disorder (ASD) is becoming more prominent in our classrooms. Join us as we explore how to create a welcoming meaningful and appropriate learning environment for your student(s) with Autism Spectrum Disorder. Topics will include: managing challenging behaviours, how to teach new skills, setting up your classroom to increase your students' independence and guidance with getting started with meaningful assessment and programming (including modified and alternative curriculum). You will leave this workshop with the knowledge and confidence to be an amazing and supportive teacher for your student(s) with autism. While this workshop will primarily focus on students in the integrated classroom, teachers of self-contained programs will also find the materials offered in these workshops to be appropriate and valuable to them as well.
